in the cellar

Yeast (Laffort Zymaflore RX60 for Pinotage, Zymaflore F15 for Shiraz and natural yeast fermentation for Cabernet Sauvignon) was inoculated within 24 hours after crushing then fermented for 6 days on skins at an average temperature of 25°C. Pressed at approx 2°balling. Malolactic fermentation induced in tank and completed within six months.

The wine was barrel matured using a mixture of 300 litre and 225litre French oak barrels (2nd, 3rd & 4th fill only) for 12 months. The wine was only blended after barrel maturation using Cabernet Sauvignon (52%), Shiraz (40%) and Pinotage (8%).

After blending the wine was lightly fined and racked from tank to tank. No filtering of the wine was undertaken except at bottling when a 5-micron filtration was used.
