### food suggestions

Served well chilled, this wine is well suited to any seafood and cold meats. Also delightful on its own!

### about the harvest

All grapes were hand picked

### in the cellar

All grapes were sorted before being crushed directly in to the press where skin contact was allowed for 8 hours. Pure yeast cultures were inoculated in the juice after pressing in order to optimize the fermentation process at around 16° C. Extended lees contact was allowed after fermentation and the wine was allowed to naturally clarify under gravity prior to filtering and bottling.
